Dr. Olaniyi Samuel Iyiola
Department of Mathematics, Morgan State University, Baltimore, MD, USA

Deadline for manuscript submissions:
20 May 2025

Message from the Guest Editors

Dear Colleagues,

Recent innovations in neural networks' architectures, parallel computing, and the availability of large datasets have reinvigorated research in Artificial Intelligence (AI). This paradigm shift is evident in stability theory in computation, pattern recognition, knowledge discovery, computer vision, natural language processing, image processing, quantum computing, etc. In this issue, we invite researchers to contribute unpublished works to this emerging area of science. Specifically, we seek theoretical, recent developments or survey papers with substantial contributions of AI in fields such as Information Theory, Graph Theory, Numerical Methods, Dynamical Systems, Computational Complexity, Engineering, Cybersecurity, Biomedical, Bioinformatics, Environmental Science, Neuroscience, Healthcare, Financial Services, Cryptography, etc.

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
