Message from the Guest Editor

In recent years, mathematical analysis models of economics and management have attracted a great deal of attention and been studied by many researchers from a broad range of mathematical viewpoints, including the mathematical analysis model in economics and management, like the econometric model, quantitative model, business intelligence, big data, data mining approach, machine learning, integration of decision science analysis, and statistical model.

The purpose of this Special Issue is to establish a collection of papers that develop novel insights on mathematical analysis methods for criteria decision support frameworks and/or to apply artificial-intelligence-based approaches, the econometric method, quantitative model, etc. to improve the current state-of-the-art in the economics and management field. Of special interest are papers that deal with economics, financial technology, business intelligence, and management.

- Financial technology
- Mobile payment
- Equity crowdfunding
- Entrepreneur
- Big data
- Machine learning
- Statistical model
- Decision science analysis

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
