Special Issue

Fractional Order Systems and Its Applications

Message from the Guest Editors

The Special Issue on **"Fractional Order Systems and Its Applications"** invites high-quality research contributions in the growing field of fractional calculus and its diverse engineering and scientific applications. Fractional order systems, defined by derivatives and integrals of non-integer order, offer enhanced modeling capabilities for systems with memory and hereditary properties, outperforming traditional integer-order models in many cases. This Special Issue welcomes original research, reviews, and case studies addressing theoretical advances, numerical techniques, control approaches, and practical implementations. We especially encourage interdisciplinary works demonstrating the effectiveness of fractional models in areas such as control engineering, signal processing, biomedical systems, robotics, and complex dynamics.

Guest Editors

Dr. Ricardo Cajo Diaz

Research Group on Industrial Automation and Control, Department of Electronics and Automation Engineering, Escuela Superior Politecnica del Litoral, ESPOL, Gustavo Galindo Km 30.5 Vía Perimetral, P.O. Box 09-01-5863, Guayaquil, Ecuador

Dr. Isabela Roxana Birs

1. Research Group of Dynamical Systems and Control, Faculty of Engineering and Architecture, Ghent University, Technologiepark 125, B-9052 Ghent, Belgium
2. Automation Department, Technical University of Cluj-Napoca, Memorandumului 28, 400114 Cluj-Napoca, Romania

Deadline for manuscript submissions

31 March 2026

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
