Athens, 15452 Athens, Greece

Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editor

Dear Colleagues,

Assisted reproduction is identified as one of the “youngest” and highly individualized fields in medicine. In the era of personalized and precision medicine, IVF practice strives to provide patients with state-of-the-art approaches, methods, and strategies in treatment and management. The continued efforts focusing on defining optimal practice and providing the scientific community with guidelines have set the tone for an IVF practice of excellence in the not too distant future.

This Special Issue dedicated to assisted reproduction aims to assist the practitioner by providing significant contributions on an array of crucial topics. This special issue aspires to target multifaceted issues that are of interest to the all-inclusive team providing IVF services, from the andrologist to the clinical embryologist, nursing coordinator, psychologist, and the reproductive endocrinology and infertility specialist. The rational fueling submissions is encouraged to have as an endpoint reporting back to the practitioners and assisting them in delineating issues that are represented by different schools of thought, ultimately targeting decision-making.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), and [other databases](#).

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
