University of Athens, Laikon
General Hospital, Athens, Greece

Dr. Elissaios Kontis

Department of Surgical
Oncology, Metaxa Cancer
Hospital, Piraeus, Greece

Deadline for manuscript
submissions:

closed (30 November 2024)

Message from the Guest Editors

This Special Issue will provide a comprehensive overview of recent advancements and current challenges in acute abdominal surgery. It will elucidate evolving trends, novel techniques, and evidence-based practices shaping the field of acute abdominal surgery. This Special Issue will encompass a wide range of topics relevant to surgeons, clinicians, and researchers involved in the management of acute abdominal diseases.

Contributions to this Special Issue will showcase cutting-edge research in acute abdominal surgery, including studies on minimally invasive techniques, enhanced recovery protocols, and personalized treatment strategies. Additionally, insights into the pathophysiology of acute abdominal conditions, innovations in surgical instrumentation, and outcomes research will be featured to provide a comprehensive understanding of this field's latest developments.

Topics of interest include, but are not limited to, surgical interventions, perioperative management, and long-term outcomes. We encourage submissions that foster dialogue, challenge existing paradigms, and offer practical insights to enhance clinical practice in acute abdominal surgery.
