Deadline for manuscript submissions:

**closed (31 January 2021)**

### Message from the Guest Editors

After recent dramatic reports of sports-related sudden cardiac deaths, the sports eligibility assessment of athletes has generated consistent uncertainties and preoccupation. Sudden cardiac death occurs in approximately 1 per 200,000 young athletes per year, usually triggered during competition or practice. It remains a difficult medical challenge to prevent this dramatic event.

The purpose of this Special Issue is to discuss issues associated with sudden cardiac death in athletes, with a focus on diagnostic workup, invasive and non-invasive diagnostic approaches, and finally, therapeutic options that provide a framework for decision making in this difficult scenario.

keywords: sudden cardiac death; athletes; ventricular arrhythmias; hypertrophic cardiomyopathy; coronary artery anomalies; myocarditis; arrhythmogenic right ventricular cardiomyopathy; channelopathies; ICD implant

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
