Deadline for manuscript submissions:

closed (31 August 2021)

Message from the Guest Editors

Dear Colleagues,

Enhanced Recovery After Surgery (ERAS) is a multimodal, multidisciplinary approach to the care of the surgical patient. ERAS process implementation involves a multi-disciplinary team effort. This Special Issue aims to gather submissions that highlight the innovative work undertaken by nurses and allied health professionals within ERAS pathways across all surgical specialties. We welcome research led by or involving nurses, operating department practitioners, physiotherapists, occupational therapists, dieticians, pharmacists, radiographers, healthcare assistants, or any other non-medical professional involved in ERAS. Research from work conducted at the pre-operative, intra-operative, post-operative, and post-discharge stage is welcome.

Mr. Thomas W. Wainwright

Dr. David McDonald

Dr. Fiona J.C. Carter

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
