## Post-COVID Cardiovascular Complications including Vaccine-Related Cardiovascular Effects

Guest Editors:

**Dr. Adrija Hajra**

Department of Internal Medicine,  
Brigham and Women's Hospital,  
Boston, MA 02115, USA

**Dr. Dhrubajyoti  
Bandyopadhyay**

Division of Cardiovascular  
Imaging, Massachusetts General  
Hospital, Harvard Medical  
School, Boston, MA 02114, USA

**Dr. Raktim K. Ghosh**

Union Memorial Hospital,  
Baltimore, MD, USA

Deadline for manuscript  
submissions:

**closed (25 May 2022)**

### Message from the Guest Editors

One of the most important effects of COVID-19 infection is on the cardiovascular system. It is still not clear whether routine screenings to detect cardiovascular abnormality in COVID-19 patients will be helpful. Additionally, recently, various newer diagnostic modalities, including the use of the artificial intelligence, in diagnosing the cardiovascular abnormalities in COVID-19 have emerged. Different medications have come out, with promising results in COVID-19 patients; at the same time, cardiac effects of anti-COVID-19 drugs have been discussed. COVID-19 vaccines have already started changing the epidemiology of the infection, reducing the infection rate.

We hope to attract the following research to our Special Issue: (1) up to date data regarding the long-term effects of COVID-19 infection on the cardiovascular system; (2) use of advanced diagnostic modalities to detect cardiovascular abnormality associated with prior COVID-19 infection; (3) vaccine-related effects on the cardiovascular system.

Kaunas, Lithuania

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
