Message from the Guest Editors

Dear Colleagues,

The present Special Issue intends to explore the impact of clinical and surgical complications on long-term renal allograft survival as well as to analyse possible prevention and treatment strategies. Both common and rare complications will be considered, with the option of including narrative reviews and case reports of particular interest or exceptional didactical value.

“Kidney Transplantation—Clinical and Surgical Challenges” will give specialists involved in the care of renal transplant recipients the opportunity to share their experience or point of view on several relevant topics with the primary aims of improving global knowledge and patients’ outcomes.

- kidney transplantation
- organ donation
- organ allocation
- immunosuppression
- allograft survival
- patient survival
- rejection
- malignancy
- complications
- polyomavirus
- cytomegalovirus
