Inflammatory Skin Diseases and Comorbidities

Message from the Guest Editors

In recent decades, a tremendous number of discoveries in the field of inflammation and inflammatory disorders have been achieved, highlighting at the same time the significant need for interdisciplinarity to manage many of those diseases. Skin, gastrointestinal, cardiovascular, and rheumatic diseases seem to share a significant number of etiopathogenetic mechanisms and must be considered more than comorbidities. We are pleased to invite you to contribute your valuable work in deepening the insights and understanding of the intricate pathogenic mechanisms of inflammatory disorders. This Special Issue aims to clarify some of the problems that have arisen in recent years, both in the diagnosis and management of inflammatory diseases that affect the skin and other organs and systems. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: inflammatory diseases of the skin, of the gastrointestinal system, rheumatologic diseases, and their comorbidities. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
