New Perspectives in Vascular and Endovascular Surgery

Message from the Guest Editor

In recent years, there has been a significant development of therapeutic methods in angiology and vascular surgery. Compelling evidence shows the reproducibility, safety, and effectiveness of such endovascular procedures. Endovascular techniques are playing a rapidly growing role in the treatment of patients with atherosclerotic lesions, aneurysms, and dissections of both peripheral and aortic vessels, in many cases replacing surgical treatment. Nevertheless, both the surgical and endovascular treatment of arterial diseases, including thoracoabdominal aortic aneurysms, present many difficulties. Original research articles, meta-analyses, and case reports are welcome to be submitted to this Special Issue. Research areas may include (but are not limited to) the following:

- Surgical and endovascular treatment of aortic diseases;
- Surgical and endovascular treatment of peripheral vessels;
- Innovative techniques for treating the aorta and peripheral vessels;
- Challenges in the perioperative, anesthetic, and ICU management of patients with aortic and peripheral vascular diseases.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
