Clinical Challenges in Transplant Infectious Diseases

Message from the Guest Editors

Solid organ transplants (SOTs) are life-saving interventions. New potent immunosuppressive strategies have enabled transplantations in high immunological risk patients, retransplantations, or ABO-incompatible transplantations at the expense of an increased recipients' susceptibility to various infections. Despite targeted prophylaxis, surveillance, and risk stratification, infectious complications remain a major cause of morbidity and a principal cause of death in this population. SOT recipients experience a high burden of infections with a specific temporal pattern, with rare opportunistic pathogens and a predominance of bacteria. In this Special Issue of the journal *Medicina*, we will address the whole spectrum of infectious complications in SOT recipients, including bacterial, fungal, and viral infections. Comprehensive reviews as well as research (be it basic, translational, or clinical research) or interesting case series or case reports are welcome, with the aim of providing readers with an up-to-date view on the screening, prophylaxis, diagnosis, and management of transplant infectious diseases.

Guest Editors

Dr. Justyna E. Gołbiewska
Prof. Dr. Alicja Dębska-Ślizień
Dr. Dorota Kaminska

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
