

Special Issue

Advances in Epidemiological and Statistical Methods for Medical Research

Message from the Guest Editor

We are pleased to announce this Special Issue entitled "Advances in Epidemiological and Statistical Methods for Medical Research". In addition to original methodologic research, we are particularly interested in topic overviews, tutorials, and seminal work of current interest in the field. We hope this Special Issue will be of interest to you. Collaboration with students and research fellows in your group also is encouraged. Following submission, manuscripts will receive prompt attention and undergo fair but thorough review by experts in the field. Your questions are welcome, as are pre-submission queries regarding the suitability of and interest in your manuscript.

Guest Editor

Prof. Dr. Jimmy T. Efird

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
