Science, Changwon, Korea

Deadline for manuscript  
submissions:  
**closed (20 March 2023)**

### Message from the Guest Editor

Dear Colleagues,

We are pleased to invite you as an author of Special Issue “Membrane Development and Application in Electrochemistry”. This Special Issue aims to review on development and application ion selective membrane for electrochemical processing, especially hydrogen energy and environmental processing research field. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: Membrane technology for water electrolysis for hydrogen or desalination, such as AEM electrolysis, MCDI and EDI and so on.

We look forward to receiving your contributions.

Dr. Kyu Hwan Lee  
*Guest Editor*

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

*Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Chemistry, Physical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
