Deadline for manuscript submissions:

closed (31 March 2023)

Message from the Guest Editor

Dear Colleagues,

We are pleased to invite you to contribute to this special issue entitled "Membrane distillation for wastewater treatment". This special issue will focus on the use of membrane distillation in the treatment of wastewater, such as brine from desalination plants, produced water, municipal wastewater, and industrial wastewater. Also, the membrane development for their application in membrane distillation applications will be included in this issue. Additionally, innovative investigations on membrane wetting control approaches are welcomed.

Authors are invited to submit their latest original results as full papers or short communications. Furthermore, review articles, case studies and perspective articles are also welcomed and encouraged.

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

Membranes is an international, peer-reviewed open accessjournal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Chemistry, Physical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous*))
