### Dr. Christina Siontorou

Department of Industrial Management and Technology, School of Maritime and Industry, University of Piraeus, 18534 Piraeus, Greece

Deadline for manuscript submissions:

**closed (31 December 2018)**

### Message from the Guest Editors

We invite authors to contribute original research articles or comprehensive review articles covering the current state-of-the-art and the future trends in the design of biosensor nanotechnology based on lipid membranes and related devices. This Special Issue aims to cover a broad range of subjects, from device design and assembly to analytical development, implementation and commercialization prospects. The format of welcomed articles includes full papers, communications, and reviews.

### Keywords

- nanotechnology
- biosensors
- lipid membranes
- surface recognition devices
- rapid and remote detection of food toxicants and environmental pollutants

Melbourne, VIC 3010, Australia

## Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

*Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Chemistry, Physical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
