### Message from the Guest Editors

This Special Issue aims to provide some relevant examples of integrated membrane operations in different industrial sectors, including water desalination, agro-food productions and wastewater treatments, highlighting the advantages achievable in terms of product quality, plant compactness, rationalization and optimization of productive cycles, reduction of environmental impact and energy consumption.

It welcomes both original contributions and reviews related to the integration of membrane systems and processes, including pressure-driven membrane operations, membrane bioreactors and membrane contactors in the treatment of industrial, municipal and agro-industrial wastewaters, water desalination, drinking water production, and agro-food processing.

an Open Access Journal by MDPI

University of Melbourne,  
Melbourne, VIC 3010, Australia

## Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

*Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Polymer Science*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
