Message from the Guest Editor

Dear Colleagues,

We are pleased to announce this Special Issue collection, entitled "Editorial Board Members' Collection Series: Metabolic Pathway Mapping and Enrichment". This Issue will compile a collection of papers from our Editorial Board Members and any potential collaborators they may invite. Our aim is to provide a forum for networking and communication between *Metabolites* and scholars in the fields of systems biology, data analysis, and bioinformatics. All papers will be published in a fully open access upon format after a rigorous process of peer review.

Prof. Dr. Hong-Yu Zhang
Guest Editor

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy
2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biochemistry and Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
