## Plant Metabolomics and Volatilomics

Guest Editors:

**Prof. Dr. Gilles Comte**

Ecologie Microbienne, Université  
Lyon 1, CNRS, INRA, UMR 5557,  
69622 Villeurbanne, France

**Dr. Franz Hadacek**

Department of Plant  
Biochemistry, Albrecht-von-  
Haller-Institute, Georg-August-  
Universität-Göttingen, 37073  
Göttingen, Germany

Deadline for manuscript  
submissions:

**closed (20 April 2024)**

### Message from the Guest Editors

Dear Colleagues,

The Special Issue is devoted to research papers that use the metabolomics approach on plants or extracts to overcome the current limitations in plant metabolomics. We invite researchers to submit their manuscripts on various aspects of plant metabolomics, ranging from sample preparation to data analysis. Any novel works in plant metabolomics that include (not exclusively) sample preparation, data handling tools to convert massive data into meaningful information, phytochemical compound identification, and pathway analysis are welcome.

- plants
- plant metabolomics
- phytochemistry
- phytochemical analysis
- natural products
- medicinal plants
- volatiles
- voltolomics

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy  
2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

## Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biochemistry and Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
