## Nutrition and Metabolism in Animals

Guest Editors:

**Dr. Yunkyoung Lee**

Department of Food Science and Nutrition, Jeju National University, Jeju, Republic of Korea

**Dr. Guiguo Zhang**

Department of Animal Nutrition, Shandong Agricultural University, Tai'an, China

**Dr. Meng M. Li**

College of Animal Science and Technology, China Agricultural University, Beijing, China

### Message from the Guest Editors

This Special Issue is devoted to nutrition and metabolism in ruminants. The topics that will be covered include (not exclusively) studies on the metabolomics analyses of dairy cattle, beef cattle, goat, and sheep, and their responses to the nutrient supplies or feed additive supplementations. It is crucial to investigate the effects of various nutrients, etc., on the growth performance, digestibility coefficients, gut development, animal product quality, gut microbiota modulations, and physiological or immunological status. We invite you to publish original scientific articles as well as review papers to expand the current knowledge in the field.

Deadline for manuscript submissions:

**closed (15 March 2024)**

## Editor-in-Chief

### Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy  
2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

## Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biochemistry and Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
