Selected Papers from the 3rd Australian Lipid Meeting

Guest Editors:

Dr. Simon H. J. Brown

School of Biological Sciences, Illawarra Health and Medial Research Institute, University of Wollongong, Wollongong, NSW 2522, Australia

Dr. Thusitha W. Rupasinghe

School of BioSciences, University of Melbourne, Parkville, VIC 3052, Australia

Deadline for manuscript submissions: **closed (31 May 2017)**

Message from the Guest Editors

Dear Colleagues,

This Special Issue will collect selected invited and contributed talks presented during the 3rd Australian Lipid Meeting, which will be hosted by Baker IDI Heart and Diabetes Institute, 21–22 November 2016. Website: https://bakeridi.edu.au/health-hub/events/ALM2016.

Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy 2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies shown utility for elucidating have mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biochemistry & Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
