Engineering, Nanjing University  
of Aeronautics and Astronautics,  
Nanjing 210016, China

Deadline for manuscript  
submissions:

**closed (30 April 2024)**

### Message from the Guest Editor

Additive Manufacturing (AM) remains a rich and rapidly developing theme in metal and alloy processing. The advancement of AM technology has brought opportunities not just for complex metal component fabrication but also for microstructure tailoring and novel material design. To model and analyze this advanced manufacturing technology for metal fabrication process optimization and component performance enhancement has become a challenging issue for both academia and industry.

This Special Issue aims to highlight research on the computation and simulation of metals processed with AM technology. In addition, post-treatment modeling and non-destructive testing and evaluation (NDT&E) on AM metals are invited here.

an Open Access Journal by MDPI

## Editors-in-Chief

### Prof. Dr. Hugo F. Lopez

Department of Materials Science and Engineering, College of Engineering & Applied Science, University of Wisconsin-Milwaukee, 3200 N. Cramer Street, Milwaukee, WI 53211, USA

### Prof. Dr. Yong Zhang

Beijing Advanced Innovation Center of Materials Genome Engineering, State Key Laboratory for Advanced Metals and Materials, University of Science and Technology Beijing, 30 Xueyuan Road, Beijing 100083, China

## Message from the Editorial Board

Metallic materials play a vital role in the economic life of modern societies; contributions are sought on fresh developments that enhance our understanding of the fundamental aspects related to the relationships between processing, properties and microstructure – disciplines in the metallurgical field ranging from processing, mechanical behavior, phase transitions and microstructural evolution, nanostructures, as well as unique metallic properties – inspire general and scholarly interest among the scientific community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Metallurgy and Metallurgical Engineering*) / CiteScore - Q1 (Metals and Alloys)
