

## Processing and Fabrication of Advanced Materials

Guest Editors:

**Dr. Caterina Zanella**

**Prof. Dr. Anders E. W. Jarfors**

**Prof. Dr. Attila Diószegi**

**Prof. Dr. Tirumalai S.  
Srivatsan**

Deadline for manuscript  
submissions:

**closed (20 December 2019)**

### Message from the Guest Editors

Dear Colleagues,

The current Special Issue focuses on recent advances made in the field of materials and their manufacturing, with the primary purpose being to develop a deep understanding of interdisciplinary developments in all aspects related to the processing and fabrication of advanced materials focusing on metals. This Special Issue aims to provide a collection of the latest advances on aspects related and relevant to materials processing and fabrication from both a research perspective as well as an engineering and industrial and application perspective in the fields of:

- Materials
  - Metals and metal–matrix composites; Coatings; Magnetic materials; Metallic glasses; Materials for wind-power systems; Intermetallic(s); Intermetallic-matrix composites; Nanomaterials and nanocomposites; Functional materials
- Manufacturing technologies
  - Additive manufacturing; Casting; Microwave processing of materials; Powder metallurgy; Machining; Surface treatments
- Materials simulations and characterization
  - Process and microstructure relations; Process and defect formation; Materials properties predictions; Component behavior

an Open Access Journal by MDPI

## Editors-in-Chief

### Prof. Dr. Hugo F. Lopez

Department of Materials Science and Engineering, College of Engineering & Applied Science, University of Wisconsin-Milwaukee, 3200 N. Cramer Street, Milwaukee, WI 53211, USA

### Prof. Dr. Yong Zhang

Beijing Advanced Innovation Center of Materials Genome Engineering, State Key Laboratory for Advanced Metals and Materials, University of Science and Technology Beijing, 30 Xueyuan Road, Beijing 100083, China

## Message from the Editorial Board

Metallic materials play a vital role in the economic life of modern societies; contributions are sought on fresh developments that enhance our understanding of the fundamental aspects related to the relationships between processing, properties and microstructure – disciplines in the metallurgical field ranging from processing, mechanical behavior, phase transitions and microstructural evolution, nanostructures, as well as unique metallic properties – inspire general and scholarly interest among the scientific community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Metallurgy and Metallurgical Engineering*) / CiteScore - Q1 (Metals and Alloys)
