Message from the Guest Editors

This Special Issue aims to publish the current trends and research results of outstanding and promising young Japanese investigators working on micromachines. The Special Issue welcomes reviews, original research articles, and communications in the field of micromachines, and provides young investigators from universities and research institutions in Japan an opportunity to present their latest research results. The "Excellent Papers Award"*, selected by the award committee, which is organized by the editorial office of Micromachines and the guest editors, will be granted to an excellent paper published in this Special Issue.

The contributions to this Special Issue will highlight the current frontiers in the extensive fields of micro-/nano-sciences, devices, and applications.

We are looking forward to receiving your submissions!

*This will be awarded to a paper that the first or the corresponding author is a young researcher whose Ph. D. degree is obtained within 15 years. This award will provide two free vouchers for MDPI journal publications.
