Message from the Guest Editors

Dear Colleagues,

For many global health problems, effective treatments already exist. However, limited access to diagnostic equipments often results in late diagnosis and delayed treatment. The medical Internet of Things (IoT) is endowed with expectation to fulfil the rigid demand, which requires that all kinds of digital medical devices link and access to the internet to acquire the real-time parameters related to personalized health, such as medical images, biochemical and biophysical parameters. The family doctors or medical Artificial Intelligence (AI) system can access the related biomedical information of their patients and give precise, personalized and preventive healthcare consultations. The medical data acquisition is the basis for the construction of medical IoT. The proposed issue will cover all aspects of medical IoT, from on chip biological sample preparation to medical sensor development, biomedical sensor network, big health data processing and AI application in medicine, which is capable of providing a systematic view on the medical IoT.

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Mechanical Engineering*)
