Message from the Guest Editors

This Special Issue will publish selected papers from the 16th International Nanotech Symposium & Nano-Convergence Exhibition (NANO KOREA 2018), 11–13 July, 2018, Goyang, Korea. In particular, the symposium, the largest symposium on nanoscale science and technology in Korea, will be a meaningful occasion to confirm major research results and up-to-date research trends, increase the exchange among researchers in relevant fields, and materialize the results of research. The NANO KOREA symposium will cover the following main topics:

1. Nanoelectronics and photonics
2. Advanced Nanomaterials
3. Nanofabrication and Measurement
4. Nanobiotechnology and Nanomedicine
5. Nanotechnology for Energy
6. Safety, Standardization and Regulation in Nanotechlogy
7. Sensors and Actuators
8. Computational Nano Science and Technology

Papers attracting the most interest at the conference, or that provide novel contributions, will be selected for publication in *Micromachines*. These papers will be peer-reviewed for validation of research results, developments and applications.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Ai-Qun Liu

1. Department of Electrical and Electronic Engineering, The Hong Kong Polytechnic University, Hong Kong, China
2. School of Electrical and Electronic Engineering, Nanyang Technological University, Singapore 639798, Singapore

Message from the Editor-in-Chief

You are invited to contribute research articles or comprehensive reviews for consideration and publication in *Micromachines* (ISSN 2072-666X). *Micromachines* is published in the open access format. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Micromachines* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We are pleased to welcome you as our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, dblp, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Mechanical Engineering*)
