Landscape Research (ZALF),  
Müncheberg, Germany

**Prof. Dr. Wen-Jun Li**

State Key Laboratory of  
Biocontrol, Guangdong  
Provincial Key Laboratory of  
Plant Resources and Southern  
Marine Science and Engineering  
Guangdong Laboratory (Zhuhai),  
School of Life Sciences, Sun Yat-  
Sen University, Guangzhou  
510275, China

### Message from the Guest Editors

This Special Issue is the continuation of our previous Special Issue, "Endophytes for Managing Biotic and Abiotic Stress in Plants".

This Special Issue invites research articles and reviews in the abovementioned areas, which should be largely focused on unraveling the plant–endophyte interactions, the mechanisms involved, and the role of these exceptional microorganisms in mitigating biotic and abiotic stresses.

Deadline for manuscript  
submissions:

**30 September 2024**

an Open Access Journal by MDPI

## Editor-in-Chief

Research, 04318 Leipzig,  
Germany

## Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology*)
