

Endophytes for Managing Biotic and Abiotic Stress in Plants, 2nd Edition

Guest Editors:

Dr. Egamberdieva Dilfuza

Leibniz Centre for Agricultural
Landscape Research (ZALF),
Müncheberg, Germany

Prof. Dr. Wen-Jun Li

State Key Laboratory of
Biocontrol, Guangdong
Provincial Key Laboratory of
Plant Resources and Southern
Marine Science and Engineering
Guangdong Laboratory (Zhuhai),
School of Life Sciences, Sun Yat-
Sen University, Guangzhou
510275, China

Message from the Guest Editors

This Special Issue is the continuation of our previous Special Issue, "Endophytes for Managing Biotic and Abiotic Stress in Plants".

This Special Issue invites research articles and reviews in the abovementioned areas, which should be largely focused on unraveling the plant–endophyte interactions, the mechanisms involved, and the role of these exceptional microorganisms in mitigating biotic and abiotic stresses.

Deadline for manuscript
submissions:

closed (30 September 2024)

an Open Access Journal by MDPI

Editor-in-Chief

Department of Molecular
Systems Biology, UFZ-Helmholtz
Centre for Environmental
Research, 04318 Leipzig,
Germany

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Microbiology) / CiteScore - Q2 (Microbiology)
