

Interactions between Parasites/Pathogens and Vectors

Guest Editors:

Prof. Dr. Günter A. Schaub

Zoology/Parasitology Unit,
Faculty of Biology and
Biotechnology, Ruhr-University
Bochum, 44780 Bochum,
Germany

Prof. Dr. Norman Ratcliffe

Department of Biosciences,
Swansea University, Singleton
Park, Swansea SA2 8PP, UK

Deadline for manuscript
submissions:

15 November 2024

Message from the Guest Editors

This Special Issue will cover the most important diseases and vectors, including the microbiota of insects. These include the interaction of arboviruses and mosquitoes, viruses and midges, plague bacteria and fleas, malaria parasites and mosquitoes, *Leishmania* and sandflies, *Trypanosoma brucei* and tsetse, and *Trypanosoma cruzi* and triatomines.

All authors are well known in the scientific community and have published articles on their respective topics. Reviews, original research, and communications focussing on interactions of *Borrelia* and ticks, interactions of bacteria/viruses and ticks (without *Borrelia*), interactions of filarial helminths and mosquitoes and interactions of *Onchocerca* and blackflies will be welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology*)
