submissions:

closed (30 September 2020)

Message from the Guest Editors

Dear Colleagues,

Session 2 of ECFG15 will focus on several aspects of fungal host interactions and their control. This Special Issue invites authors to submit their contributions regarding animal–fungi interactions, plant–fungi interactions, and aspects of antifungals and fungicides related to understanding the mechanism underlying the pathogenicity and the means for controlling diseases in different hosts.

Prof. Dr. Massimo Reverberi

Dr. Scala Valeria

Dr. Ivan Baccelli

Dr. Marina Collina

Dr. Andrea Peano

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology*)
