# **Latest Review Papers in Plant Microbe Interactions 2023**

Guest Editor:

#### Prof. Dr. James F. White

Department of Plant Biology Rutgers, The State University of New Jersey, New Brunswick, NJ, USA

Deadline for manuscript submissions:

closed (31 December 2023)

## **Message from the Guest Editor**

Dear Colleagues,

This Special Issue aims to collect high quality review papers in all the fields of Plant Microbe Interactions. We encourage researchers from related fields to contribute review papers highlighting the latest developments in section Plant Microbe Interactions, or to invite relevant experts and colleagues to do so. Full length comprehensive reviews will be preferred.

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC,

PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Microbiology) / CiteScore - Q2 (Microbiology)
