Recent Advances in *Trypanosoma cruzi* Infections

Guest Editor:

Prof. Dr. André Talvani

Department of Biological Sciences, Institute of Exact and Biological Sciences, Universidade Federal de Ouro Preto (UFOP), Ouro Preto 35400-000, Brazil

Deadline for manuscript submissions:

closed (1 December 2022)

Message from the Guest Editor

We seek original research, reviews, and brief reports that cover, but are not limited to, the following topics:

- The application of lipid and protein mediators in *T. cruzi*-induced cardiovascular damage.
- Research into therapies with synthetic or natural compounds or even with current routine medicines to evaluate their efficacy on parasite control, immune response, and clinical status.
- Research involving host–parasite interactions.
- Investigations of knockdown or overexpression of genes related to the immune response during the pathogenesis of human or experimental Chagas disease.
- Research involving signal transduction during *T. cruzi* infection.
- New interventive propositions (dietary, physical exercise, and alternative therapies) with consistent immunopathological and/or clinical data to promote the benefits to the lifestyle of the infected host.

Research, 04318 Leipzig,
Germany

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))
