Message from the Guest Editor

Dear Colleagues,

This Special Issue "Advances in Oral Microorganisms and Biofilms" focusses on publishing data related to oral microorganisms and biofilms in periodontal and peri-implant infections, in dental caries and endodontic infections, as well as other oral diseases. The aim is to present research outcomes related to the role and impact of oral microorganisms and biofilms, as well as therapeutical strategies and new developments in reestablishing dysbiotical microbial changes and resolution of inflammation.

We invite you to submit research articles, review articles, communications, and perspective related to oral microorganisms and biofilms.

Dr. Raluca Cosgarea

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology*)
