

Gut Microbiome of Farm Animals in Health and Disease

Guest Editor:

Dr. Łukasz M. Grzeškowiak

Institute of Animal Nutrition,
Freie Universität Berlin, 14195
Berlin, Germany

Deadline for manuscript
submissions:

closed (31 May 2022)

Message from the Guest Editor

This Special Issue aims to publish recent findings on various aspects of the gut microbiota and its ecological interactions with the animal host through cellular, metabolic, genetic and environmental pathways. Research articles, review articles and short communications on the gut microbiome in farm animals are welcome. We look forward to publishing your work.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology*)
