

Gut Microbiota: Health, Clinical & Beyonds

Guest Editors:

Prof. Dr. Shuangjiang Liu

Prof. Dr. Changtao Jiang

Prof. Dr. Zhongze Fang

Prof. Dr. Hongwei Liu

Prof. Dr. Jun Wang

Deadline for manuscript
submissions:
closed (30 June 2023)

Message from the Guest Editors

Highly qualified papers selected from the annual meeting of "Biophysical Society of China's Division of Intestinal Flora Academic" will be invited to submit to this Special Issue for publication (50% extensions of contents of the conference paper). However, the Special Issue also welcomes submissions from general researchers that fit into the scope of the SI as shown below. Research areas may include (but are not limited to) the following:

- Host-gut microbiota interactions;
- Intestinal flora and chronic diseases;
- Microbiota-gut-brain axis;
- Clinical treatment research on gut flora;
- Gut microbiota development in animals;
- Diet, nutrition, and gut microbiota;
- Probiotics and gut health;
- Intestinal flora intervention and application transformation;
- New technologies for data mining and characterization of intestinal flora;
- The role of intestinal flora and human metabolites in pathogenesis of diseases.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology*)
