Microbiota in Insects

Guest Editor:

Dr. Patricia Luis

Univ Lyon, Université Claude
Bernard Lyon 1, CNRS, INRAE,
VetAgro Sup, UMR Ecologie
Microbienne, F-69622
Villeurbanne, France

Deadline for manuscript
submissions:

closed (31 March 2022)

Message from the Guest Editor

Concerning this Special Issue of the journal *Microorganisms*, we cordially invite you to submit research papers, review articles or short communications presenting recent advances related to our knowledge of insect–microbiota interactions in terms of microbiota functions, molecular mechanisms of interactions, environmental impacts on insect–microbiota, insect–microbiota coevolution, and microbiota-based strategies for pest or vector control.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular
Systems Biology, UFZ-Helmholtz
Centre for Environmental
Research, 04318 Leipzig,
Germany

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology*)
