

Failure Characteristics of Deep Rocks

Guest Editors:

Prof. Dr. Diyuan Li

Dr. Zhenyu Han

Dr. Xin Cai

Dr. Shijie Xie

Deadline for manuscript
submissions:

closed (25 November 2022)

Message from the Guest Editors

The design and construction of underground engineering, such as mines, tunnels, hydropower stations and nuclear waste repositories, have been surging in scale and quantity over the past few decades, and it is believed that this trend will continue into the future. These large-scale engineering projects are closely related to rock materials and rock mechanics...This Special Issue is dedicated as a specific platform for all rock failure research. This topical section can serve as the missing link between applied and fundamental research journals. Therefore, “Failure Characteristics of Deep Rock” is dedicated to, and thus welcomes, all rock-based scientific research in order to deepen the understanding of deep rock hazards. Authors are therefore invited to submit their relevant research contributions to this Special Issue.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Geochemistry and Geophysics*) / CiteScore - Q2 (*Geology*)
