

## Feature Papers in Mineral Geochemistry and Geochronology 2019

Guest Editor:

**Prof. Dr. Nigel J. Cook**

School of Chemical Engineering,  
University of Adelaide, Adelaide,  
SA 5005, Australia

Deadline for manuscript  
submissions:

**closed (31 October 2019)**

### Message from the Guest Editor

This Special Issue, “Feature Papers in Mineral Geochemistry and Geochronology 2019”, will cover topics of broad interest to the international geoscience community. The Special Issue will contain invitation-only original research and review articles from prominent researchers in the field that cover recent advances in microanalytical techniques, including geochronology and isotope geochemistry, compositional data for natural minerals of all types, and experimental work on their synthetic analogues, as well as the application of mineral chemistry to issues such as the petrogenesis of igneous rocks or exploration for mineral deposits.

Prof. Dr. Nigel J. Cook

Bayreuth, Germany

## Message from the Editor-in-Chief

*Minerals* welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Geochemistry and Geophysics*) / CiteScore - Q2 (*Geology*)
