

## Feature Papers in Mineral Deposits 2020

Guest Editors:

**Prof. Dr. Theodore J. Bornhorst**

Emeritus Professor, Department of Geological and Mining Engineering and Sciences, Michigan Technological University, Houghton, MI 49931, USA

**Prof. Dr. Panagiotis Voudouris**

Department of Geology and Geoenvironment, National and Kapodistrian University of Athens, 15784 Athens, Greece

Deadline for manuscript submissions:

**closed (1 April 2021)**

### Message from the Guest Editors

Dear Colleagues,

The Special Issue "Feature Papers in Mineral Deposits 2020" will cover topics related to mineral deposits of broader interest to the geoscience community. It will contain review and original research articles that cover recent advances in our understanding of mineral deposits as demonstrated by studies of various scales from a single component of an individual deposit to many deposits in a mineral district to an entire type of deposit worldwide using a wide spectrum of data from field to microscopic to analytical to experimental and more. The articles will be from members of the Mineral Deposits Section Editorial Board and by researchers that they invite. Researchers are welcome to contact a member of the Mineral Deposits Section Editorial Board to be invited.

Prof. Dr. Theodore J. Bornhorst  
Prof. Dr. Panagiotis Voudouris

University Bayreuth, D-95440  
Bayreuth, Germany

## Message from the Editor-in-Chief

*Minerals* welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Geochemistry and Geophysics*) / CiteScore - Q2 (*Geology*)
