**Dr. Teresa Valente**

Department of Earth Sciences,  
University of Minho, 4710-057  
Braga, Portugal

**Dr. Sergio Carrero**

Institute of Environmental  
Assessment and Water Research,  
Spanish National Research  
Council, 08034 Barcelona, Spain

### Message from the Guest Editors

Studies dealing with new geological sources of critical raw materials (Co, Cu, Ni, REEs, etc.) with a focus on their distribution inside the ore are of great interest. Research on the weathering of conventional primary ores and on the mineralogy and chemistry of mine wastes is welcome. The impact of mines on metal distribution over time in fluvial and marine ecosystems is among the topics of this Special Issue, and the submission of manuscripts dealing with sequential extraction techniques and/or an evaluation of metal bioavailability is encouraged. Papers on treatment systems for mine waters and on the control of environmental quality with biomarkers (e.g., diatoms) are acknowledged.

Deadline for manuscript  
submissions:

**closed (29 July 2022)**

## Editor-in-Chief

### **Prof. Dr. Leonid Dubrovinsky**

University Bayreuth, D-95440  
Bayreuth, Germany

## Message from the Editor-in-Chief

*Minerals* welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (Mining and Mineral Processing) / CiteScore - Q1 (Geology)
