120th St., New York, NY 10027,  
USA

Deadline for manuscript  
submissions:

**closed (31 January 2021)**

### Message from the Guest Editor

Dear Colleagues,

I am pleased to invite researchers to share their findings in this international platform. The second volume will focus on the **recent advances on CO<sub>2</sub> sequestration by mineral carbonation**. There are challenges with respect to the selection of suitable minerals and rock amenable to conversion of CO<sub>2</sub> to mineral carbonates as well as the problems of extraction of these minerals and rocks and disposition of the products at economically viable means.

Prof. Tuncel M. Yegulalp  
*Guest Editor*

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Leonid Dubrovinsky**

University Bayreuth, D-95440  
Bayreuth, Germany

## Message from the Editor-in-Chief

*Minerals* welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), GEOBASE, GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (Mining and Mineral Processing) / CiteScore - Q1 (Geology)
