## Molecules from Side Reactions II

Guest Editors:

**Dr. Stefano D'Errico**

Department of Pharmacy,  
University of Naples Federico II,  
Via Domenico Montesano 49,  
80131 Naples, Italy

**Prof. Dr. Annalisa Guaragna**

Department of Chemical  
Sciences, University of Naples  
Federico II, Via Cinthia 21, 80126  
Napoli, Italy

Deadline for manuscript  
submissions:

**closed (31 August 2023)**

### Message from the Guest Editors

Dear Colleagues,

It is with great pleasure that the second edition of the Special Issue "[Molecules from Side Reactions](#)" is launched, following the success of the first edition. This Special Issue aims to make available to the scientific community information on the side reactions and side products that inevitably take place during total or multistep syntheses. The submission of research articles covering all of the fields of organic chemistry is welcome. Due to the special nature of this topic, the reaction yields are not a key element in assessing the quality of the submitted research.

You may choose our [Joint Special Issue](#) in *Molecules*.

Dr. Stefano D'Errico  
Dr. Annalisa Guaragna

## Editor-in-Chief

### **Prof. Dr. Nicholas Leadbeater**

Department of Chemistry,  
University of Connecticut, 55  
North Eagleville Road, Storrs, CT  
06269-3060, USA

## Message from the Editor-in-Chief

*Molbank* is a unique electronic journal that rapidly publishes very short articles, which typically encompass one compound per paper (“short notes”) as well as “communications”. The aim of this format is to prevent potentially useful scientific information from being lost. In many research groups, there are unpublished compounds that are available, which do not truly fit into a full paper or even a conventional short paper, e.g. because the main work in a series of compounds has already been published. Nevertheless, somebody else might be interested in just this particular compound. *Molbank* offers an excellent platform for preserving the aforesaid kind of information.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Reaxys](#), [CAPlus / SciFinder](#), and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 13.9 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2024).
