### Message from the Guest Editors

Dear Colleagues,

In 2020, we are celebrating the 25th anniversary of our journal *Molecules*.

To date, the journal has published more than 20,000 papers and the journal website attracts 115,000 monthly visits and more than 395,000 monthly page views. Most of this success has been achieved thanks to our readers, innumerable authors, anonymous peer reviewers, editors, and all the people working in some way for the journal who have joined efforts for years.

To mark this important milestone, I am proud and honored to announce that a Special Issue entitled “Recent Advances in Natural Products—2020” is being launched. This Special Issue will collect high quality review papers in natural products chemistry research fields. Together with Dr. Esra Capanoglu and Dr. Simal-Gandara, Co-Guest Editors of the Issue, we encourage all research groups covering various areas to contribute an up-to-date and comprehensive review, highlighting the latest development in natural products chemistry.

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
