Deadline for manuscript
submissions:

15 August 2024

Message from the Guest Editors

Dear Colleagues,

The search for new drugs remains a priority, with growing interest in medicinal plants and their biologically active compounds. These compounds have complex structures that are challenging to replicate at the atomic level and exhibit a more intricate mechanism of action than synthetic drugs. This Special Issue aims to provide valuable information to the scientific community regarding the bioactivity of plant extracts and natural compounds, focusing on their anticancer, antioxidative, anti-inflammatory, and anti-infectious properties and their potential in treating age-related disorders and metabolic syndrome.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
