Message from the Guest Editors

Dear Colleagues,

Neurologic disorders such as depression, convulsion, epilepsy, and Alzheimer's disease affect many people. In recent years, we have witnessed the discovery of numerous new organic compounds as potential antidepressant/anticonvulsant/anti-Alzheimer agents from de novo synthesis or structural modification of natural products. However, the development of new candidate drugs for the treatment of these diseases is still an urgent and intense need. Hence, so many scientists around the world are still involved in the discovery of new substances with antidepressant/anticonvulsant/anti-Alzheimer's disease activity.

The aim of this Special Issue is to provide a platform for all scientists who are currently engaged in antidepressant/anticonvulsant/anti-Alzheimer drugs research. It is our great pleasure to invite you to contribute to this Special Issue and present your work in the form of communications, articles, or reviews

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
