Molecules4Life—First International Meeting

Guest Editors:

Dr. Miguel Ribeiro

Dr. Fernanda Cosme

Dr. Lucinda V. Reis

Dr. Paula Lopes

Dr. Rui Campos

Dr. Alice Vilela

Deadline for manuscript
submissions:

closed (30 June 2024)

Message from the Guest Editors

The Chemistry Research Centre—Vila Real (CQ-VR) of the University of Trás-os-Montes and Alto Douro (UTAD, Vila Real, Portugal) intend to launch a biennial international conference that contributes to the establishment and strengthening of interactions between chemists and scientists of other fields with common interests. Participants from chemistry, biochemistry, pharmacy, bioengineering, biomedical engineering, physics, and other related areas, from both academia and industry, are expected to attend. The first related Special Issue will be devoted to the interplay between new molecules, new molecular assemblies, and health sciences.

The meeting is organized around four main topics:

- Molecules4: Drug Delivery
- Molecules4: Healthy Food
- Molecules4: Sensing and Diagnostic
- Molecules4: Therapeutics

Molecules4Life will be held at the campus of UTAD on the 20–22 of September 2023. This Special Issue is open not only to participants of the Molecules4Life: First International Meeting—all researchers interested in the field of “*Molecules*” are welcome to contribute.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical
Biology and Phytochemistry,
University of Münster,
Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
