Message from the Guest Editors

Dear Colleagues,

Food safety has become a major global public health concern because of its impacts on public health and the international food trade. Contaminants in food, such as pathogens, toxins, pesticides, veterinary drugs, heavy metals, and illegal additives, pose a serious threat to human health. Developing advanced techniques for the detection and control of these food contaminants is urgent. This Special Issue entitled “Analysis and Detection Technology of Food Contaminants” aims to provide a platform for researchers to share their developments in the analysis and detection technology of food contaminants, including, but are not limited to, the colorimetric method, fluorescence method, electrochemical method, chemiluminescence method, and other novel methods. Here, we sincerely invite authors to contribute original research articles or review articles covering the most recent analysis and detection technologies.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
