Deadline for manuscript
submissions:

31 January 2025

Message from the Guest Editors

Dear Colleagues,

This Special Issue will provide up-to-date information on natural products and their possible applicative fields related to their biological activities. In recent years, there has been an increasing amount of interest in natural products, which are important sources of novel drug research and development. Contributions to this Special Issue may cover all advances related to natural product discovery, including the possible use of essential oils and extracts in new fields.

This Special Issue, "Natural Products: Isolation, Analysis and Biological Activity," aims to publish original scientific articles on obtaining, identifying, and applying natural products in healthcare, agriculture, and foods.

Dr. Hazem Salaheldin Elshafie

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
