Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Molecules* is dedicated to recent advances and hot topics in the research area of natural products chemistry. It comprises a selection of exclusive papers contributed by invited reputable scholars, including the members of the Editorial Board as well as the Topical Advisory Panel of the Section Natural Products Chemistry. This Special Issue is meant to collect articles analyzing the new groundbreaking results of the invited scientists' original research as well as timely review articles discussing key topics in the field. Thus, this Special Issue aims to represent our Section as an attractive open access publishing platform for all aspects of modern contemporary natural products chemistry.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
