Message from the Guest Editor

Professor Alan H. Cowley, F.R.S. (1934–2020) was one of the most influential pioneers of the “renaissance” of the field of main group chemistry. He was the author of more than 500 publications and was one of the most highly cited researchers in chemistry for many years. He earned numerous awards, including a Guggenheim Fellowship, the Royal Society of Chemistry Award for Main Group Chemistry, the American Chemical Society’s Award for Distinguished Service in the Advancement of Inorganic Chemistry, and he was elected as a Fellow of the Royal Society, amongst many others. He was an excellent mentor and had over 100 students, postdoctoral fellows, and co-workers—many of whom have become notable researchers.

This Special Issue of *Molecules* in Alan’s memory is intended to provide those who worked with him, collaborated with him, or were influenced by him a place to publish an article in his memory. In addition to new original work, authors are invited to submit reviews or perspective articles that highlight the influence Alan H. Cowley had on their areas of expertise.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical
Biology and Phytochemistry,
University of Münster,
Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
